Original Variable from HBN Dataset	Variable name in code	Measure	Variable Type	Action in Data Audit^	Final Variables Included in Analyses	Variable name in code
Covariates (U)						
Age	age	Basic Demographics	Continuous	NA ,	Age	age
Sex	sex	Basic Demographics	Classifier, Dichotomous	NA	Sex	sex
Whole brain volume	whole_brain_vol	MRI Scan	Continuous	NA	Whole brain volume	whole_brain_vol
Independent Variable (X)						
Inconsistent discipline	apq_p_id	APQ- Parent Report	Continuous	NA	Inconsistent discipline	apq_p_id
Mediator (M)						
Hippocampal volume	hippo_vol	MRI Scan	Continuous	NA	Hippocampal volume	hippo_vol

Table 1. Primary variables in mediation model and associated cleansing steps

^Denotes no action necessary; variable ready for analysis.

Response (Y)

CBCL- T scores NA Continuous
